## DEVI Get free

"Sheryl Crow meets Queens of the Stone Age." – *Beat* magazine

DEVI (pronounced "Davey") is an exciting new rock band from Jersey City, led by singer/guitarist DEBRA DEVI, "a supersonic fret-burner who writes hauntingly memorable songs" (*JamBase*).

With brothers JOHN HUMMEL on drums and KEVIN HUMMEL on bass, she leads "a bad-ass power trio with looks, swagger, a sense of humor and blistering chops." (*Midwest Record*)

The band's debut album, *GET FREE* (True Nature Records/Redeye USA), has earned Debra comparisons to singers Sheryl Crow and PJ Harvey and guitarists Jimi Hendrix and George Harrison. She's become a Fender Girl Rock Nation artist, and the first female guitarist to record for Guitar World's Lick of the Day iPhone app.

DEVI is in pre-production for a new EP with former Paisley Park (Prince) engineer/producer Lisa Chamblee-Hampton, with plans in the works to record at Sylvia Massy's RadioStar Studio in California. Debra will also record a track for Lisa's *Making Music Herstory* compilation album.
